Introducing RUFNEK®
with *Intelliguard*™

RUFNEK®

with *Intelliguard*™

**At Tulsa Winch Group, we know that
downtime affects your bottom line.**

That's why every planetary winch that bears the RUFNEK® brand now delivers a higher measure of safety than any other winch on the market. RUFNEK® with Intelliguard™ is added protection from winch overloading on bed trucks, winch trucks and pole trucks—helping operators avoid accidents and injuries.

And helping you prevent equipment failure, lost time and lost productivity.

**Smart Technology to Help You
Work Safer**

RUFNEK® with Intelliguard™ is a capacity-alert system using field-proven technology to measure torque information each time your winch is operated. As the winch approaches its maximum rating, Intelliguard's light indicator warns the operator and records the event.

Intelliguard's electronic records are easily downloadable, enabling fleet and safety managers to make more informed decisions about preventive maintenance, equipment handling and safety training.

**If winch
overloading
is costing you,
it's time you
discovered
RUFNEK® with
Intelliguard™.**
